

School Administrative Unit # 55	Policy Code: BDH
Adopted: 11-12-02	Page 1 of 1

CONSULTANTS

In situations where knowledge and/or technical skills are needed that cannot be supplied by the regular staff positions, technical and consultant assistance will be considered as one alternative for providing the desired service. The superintendent is authorized to contract with consultants as required.

The Board shall encourage the use of professional consultants from the State Department of Education, colleges, universities and other sources, when it feels such consultant services will be helpful.
