

## Turnitin.com

Turnitin.com is an online program that:

- 1) Allows for online peer teacher feedback.
- 2) Provides an automatic digital "paper trail" and allows for ease of revision without losing drafts.
- 3) Has common grading rubrics that aide in consistency and alignment to the Common Core.
- 4) Acts as a tool to help facilitate proper citation and documentation in student writing.
- 5) Colleges and Universities such as SNHU are utilizing this program.

a collaborative approach  
to student success.*

## Features

### Schedule

Half the freshmen have their four core classes in the morning, and the other half in the afternoon. Each half shares its own teachers in the core subject areas of English, Math, Science and Social Studies. Students take a double block (two consecutive periods) of Physical Science one semester and a double block of Government and Economics (Social Studies) the other semester. This schedule allows for extended engagement.

### Advisory

A small group of students meet with an adult throughout the school year. Advisory discussions focus on academics, school culture, and current events.

### Orientation

Students, teachers, administrators, and guidance counselors go to *Adventurelore* for team building activities in September. The bonding that comes out of this experience carries over into the classrooms and daily lessons.
