

Potential AP Physics 2 students

Summer 2019

See assignments below for Chapter 17.

Homework will be collected on the first day of class. Follow the Problem Solving Method format described in section 2-6 of the Chapter 2 in the textbook (page 30) if applicable. This will be a graded assignment.

Draw a line across the page to separate each question.

Circle your answers and STAPLE your work.

Be neat. If I cannot read it, it is marked wrong. Partial credit will be given on HW "questions".
