

The Timberlane Regional School District and Community Partnership Program

OUR MISSION

The Timberlane Regional School District And Community Partnership Program is committed to building and maintaining mutually beneficial educational partnerships by providing collaborative opportunities to support and enhance student aspirations and community needs.

The Timberlane Regional School District and Community Partnership Program looks to create meaningful partnerships between the four towns of the Timberlane Regional School District and, its surrounding communities and the Timberlane Regional School District.

Through this unique program local businesses and community organizations, both big and small, can team up with specific Timberlane Schools or the District as a whole, to support and contribute to the success of all of our students. Business partners can provide a combination of volunteer opportunities, in-kind contributions, financial resources, work opportunities, and more to meet the needs of their partner schools.

WE ARE ON THE WEB:
