

# COVID-19 Dashboard Key

TRSD has adopted the state recommended metrics for transitioning between instructional models for our schools. The following charts from that [state document](#), should be used as a key to interrupt the metrics posted on the TRSD website.

Criteria	Level of Community Transmission		
	Minimal	Moderate	Substantial
COVID-19 PCR test Positivity as a 7 day average- Rockingham County	< 5%	5-10%	>10%
Number of new infections per 100,000 population over prior 14 days – Rockingham County	< 50	50-100	>100
Number of new hospitalizations per 100,000 people over the prior 14 days – Rockingham County	<10	10-20	>20

Criteria	Level of School Impact		
	Low	Medium	High
Transmission within the school facility	Zero or sporadic cases with no evidence of transmission within the school setting.	One cluster* in the school	Two or more clusters* in the school with onset (based on source case symptom onset dates) within 14 days of each other.
Student absenteeism due to illness	<15%	15-30%	>30%
Staff capacity to conduct classes and school operations.**	Normal	Strained	Critical

\*A cluster is defined as 3 or more individuals confirmed with COVID-19 who are part of a related group of individuals (eg classroom) who had the potential to transmit infection to each other through close contact.

\*\*This subjective assessment should factor a school's ability to maintain adequate staff for facility operations, transportation, teaching, and administrative functions.

		Level of Community Transmission		
		Minimal	Moderate	Substantial
Level of School Impact	Low	In-Person	In-Person	Hybrid
	Medium	In-Person	Hybrid	Remote
	High	Hybrid*	Remote	Remote

\*Depending on the level of COVID-19 transmission and outbreak status, public health may recommend temporary closure of school and remote learning for a short period of time to control transmission before re-opening in a hybrid instructional model.
