

## PowerSchool Parent Portal Single Sign-On

### Introduction

Parent Portal Single Sign-On is a new feature the Timberlane Regional School District is providing to Elementary School parents for the 2013-14 School Year. This resource enables you to setup your own Username and Password and manage your own personal Parent Portal account preferences. If you have more than one child enrolled in the school district, you will be able to view each child's information without the need for having multiple accounts.

Parent Portal, which is already in use for High School and Middle School students, provides access for parents to view Grades and Attendance, contact teachers by email, set up Email Notifications, view Teacher Comments, etc. for their students. **Initially for Elementary school students, parents will have access to teacher email and attendance history for the current term, and the ability to set preferences for receiving school and district notifications (see Power Announcement setup instructions provided).**
