Dear Parent/Guardian,

In accordance with the guidelines outlined in the attached letter from the NH Department of Education, the Timberlane Regional School District will administer the required NH Statewide Assessment System (NH SAS) summative assessments according to the calendar below. State and federal accountability guidelines require schools and districts to meet at least 95% student participation in statewide assessments. Under this requirement, students who opt out of the 2022 assessment, which results in a participation rate that falls below the 95% district and school participation requirement, will be counted as zero scores in the determination of school and district achievement results.
