We are pleased to inform you that Whitsons is launching a custom designed, state of the art, mobile platform that will bring menu planning, nutrition information, meal ingredients and real time allergen information to the fingertips of students, parents and school district staff. This new menu viewing interface, **FD MEALPLANNER**, will take the place of the Whitsons district web pages bringing you all new streamlined mobile viewing capabilities.

FD MEALPLANNER WILL BE AVAILABLE IN YOUR DISTRICT BEGINNING SEPTEMBER 2019.

FD MEALPLANNER provides easy access to school menu information anytime, from any mobile device or PC. Your menus will now be interactive allowing custom meal building and will display nutritional (such as calories, fat, sodium, etc.) and allergen information. This feature is especially important for parents of children with food allergies and school nurses who need quick and easy access.

Whitsons is excited to bring you our new user friendly menu viewing tool which also allows you to build your own profile, or a profile for your entire family of students, and then save your account preferences making future **FD MEALPLANNER** visits a breeze. We think you will find this new platform as exciting as we do.
